1 Touch the Sun

Bask in the light of our Sun in all its electromagnetic glory — but beware of its explosive nature! Explore awe-inspiring real-time images from space; get hands-on with sunspots, magnetism and solar storms; and see how the Sun's bluster touches us here on Earth.

2 Destination Universe

Take a journey from our Sun to the farthest reaches of the cosmos! Experience the Origins Theater, crawl into a black hole, see what happens when galaxies collide and view stunning space images.

3 Beyond Blastoff: Surviving in Space

Get a glimpse into the life of an astronaut, and experience the mixture of exhilaration, adventure and confinement that is living and working in space.

2 One Giant Leap: A Moon Odyssey

Take a simulated Moon-walk, try on a space helmet, climb into a Mercury capsule, and land a lunar module! This hands-on exhibit explores Moon legends and science fiction, the Space Race and Moon landings, and the Earth-Moon system.

1 Chabot Observatories: A View to the Stars

Explore the history of the Chabot Observatories and how its historic telescopes continue to be used today. Daytime visitors can virtually operate a telescope and travel through more than a century of Chabot's history.

2 Bill Nye's Climate Lab

Begin your mission as a Climate Agent and help create our clean energy future. Choose an avatar and start earning points as you bike with Bill Nye, make wave energy, and play the new game **Lab Dash!**
